Annual Sale of WATCHES

A watch is probably the last piece of staple merchandise that people, familiar with trade conditions, would expect to hear of being sold under-price. For the last two or three years Waltham and Elgin movements have been sold far ahead of the possible output of the factories, and have been bringing a premium on the list prices. This year conditions are even worse than heretofore for the securing of Watches under-price. But the Annual Watch Sale is a fixture of our Jewelry business, and during the recent months we have been making a tremendous effort to make this occasion as great as any that have preceded it. We have overcome conditions. Today we have vast and splendid stocks ready, and are able to announce savings of a fifth, a quarter and even a third of regular prices on staple Watches for men and women.

In addition to the Elgin and Waltham movements we have also included from our own stock many of our finest and best grades of Geneva and other Swiss Watches. Every Watch is guaranteed fully, and is perfect in every way. The details follow:
